LISTINGS

In the past, every business needed to be listed in the Yellow Pages. Today, business information can be found on 50+ platforms such as Waze, Yelp, Facebook, Google, Apple and GPS systems.

Listings are online directories where a business can publish information like opening hours, address, phone number, website and other relevant information.

Use **seo console** to immediately sync your information across 50+ directories. Simply update and publish your business information in one go, across multiple platforms such as Google, Uber, Siri and Facebook. From changing your opening hours to updating your contact details, uploading photos, or displaying delivery options etc.

Why is complete and recent information so important?

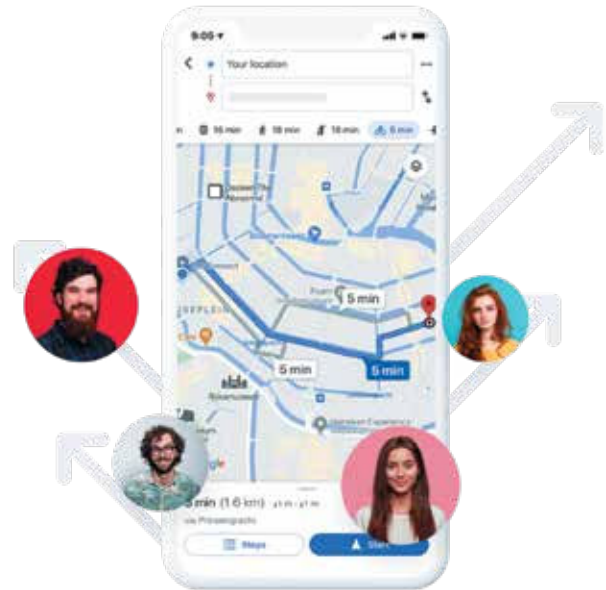

Because 80% of consumers lose trust in local businesses if online information is incorrect or not available.

MORE CUSTOMERS

Accurate listings improve your search rankings.

When more people can find you, more people can choose you. Complete and consistent information will automatically lead to more calls, website traffic and navigation requests.

Keep track of your business results and invest time where it matters with **seo console**.

seo console LISTINGS

Responding to reviews, helps.

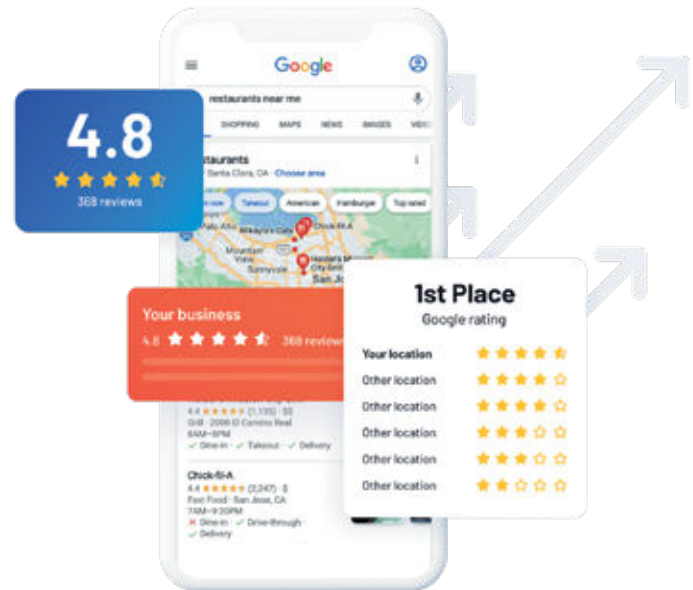

*Consistently responding to 75% or more reviews
can improve your rankings on review sites.*

BUILD BRAND

80% of consumers decide whether to choose a business based on reviews.

Managing your reputation online is vital. Your customers will form views about you from the reviews they read. Respond to reviews across multiple platforms from the **seo console**.

Be in control of what is being said about you, so you can easily identify where improvements need to be made.

seo console REVIEWS

Manage your reputation

*Get all these features and more for
just £19.99 per month*

Features include

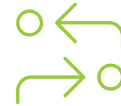

Monitor

Simply keep track of all your reviews across 50+ different platforms, all in one place.

Request

Build and encourage more reviews with tools that make it easy to do and share.

Divert

Channel reviews towards the best email or review site, depending on the sentiment.

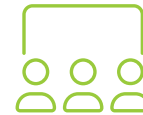

Respond

Manage your online reputation and improve rankings by responding to reviews.

Competitors

Set up competitors and monitor their review performance on various channels.

Research

Use insights from review comments to understand target markets and expectations.

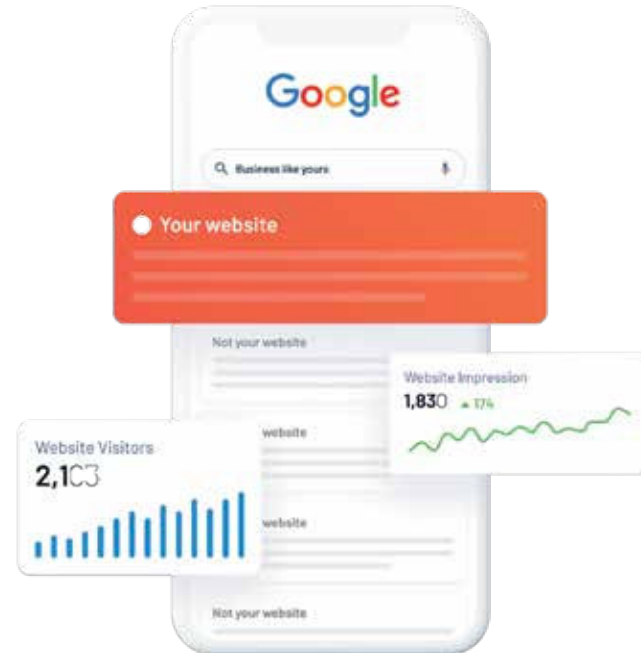

OPTIMISE

Gain more customers through your website, increase traffic and offer a great looking and fast experience for your visitors.

Automatically index and update your website's sitemap to all search engines, increasing online visibility. We show you everything there is to improve on your website from a technical SEO perspective. Fix most bugs easily with just a few clicks.

Use our tools to analyse the keywords you're ranking for and see where improvements could be made. Keep tabs on the competition to see how you stack up against them and where you need to focus your efforts.
